

Bridging Finance that beats the clock

Fully credit backed offer within 72 hours

Where property is concerned, speed is everything. We're able to have a decision in principle within 24 hours, and a fully credit backed offer within 72 hours.

Why choose Bridging Finance?

When you think of bridging finance you probably think of stop-gap finance – when you're trying to sell one property and buy another. Whilst it's great for this, a bridging loan is really just interim finance that can be used as a short to mid-term loan.

Loan-to-value rates

Unlike many lenders we base your loan amount on the property's value on the open market. This means we're potentially able to offer you more.

Retained interest

Want to reduce your repayments? No problem. Instead of paying monthly interest, we can retain it, and add it to your balance at the end.

Equity Release

Specifically designed to help developers or landlords release capital tied up in completed projects and purchase their next property.
